

LED RETRO TROFFER 2X4

PRODUCT DESCRIPTION:

The LED Troffer Retro Kit is the easiest way to convert an existing fluorescent troffer to an energy efficient LED troffer. It houses both the boards and the driver, eliminating an additional step of installing the driver. Simply remove the contents of the existing fluorescent troffer and install the LED Troffer Retro Kit with four tek screws.

FEATURES:

- Save installation time with factory installed boards and drivers
- Available in 2x2 & 2x4 (See 2x2 spec sheet for details)
- Up to 140 LPW
- DLC Premium
- 0-10v Dimming standard
- Limited warranty: 5 years on luminaire

APPLICATIONS:

- Office
- Schools
- Universities
- Fitness Rooms
- Hospitals
