LED HIGH BAY RETRO

PRODUCT DESCRIPTION:

TechBrite's LED High Bay Retro provides a viable alternative to replacing existing linear fluorescent high bays. The LED High Bay Retro is popular in applications where existing fixtures are "piped" or hard-wired to the power source. It is one of TechBrite's highest LPW solutions, boasting over 150 LPW in the highly efficient lumen packages, qualifying for DLC Premium. The standard 0-10v dimming allows for maximum control. The "C" and "D" packages allow an integral occupancy/ daylight sensor for even greater field adjustability. The LED High Bay Retro is the "plug and play" answer for difficult-to-replace fixtures, while offering maximum controllability.

FEATURES:

- DLC Premium—Classified as retro kit and new fixture
- Retro kit installs in existing fluorescent fixture housing
- Reduce waste and install time
- Reuse existing metal housing
- Fits fixture 12.5" and wider
- Speedy install, add functionality with optional integral photo/motion sensor
- Retrofit "piped" fixtures
- 0-10v Dimming standard
- Limited warranty: 5 years on luminaire

PERFORMANCE SPECIFICATION:

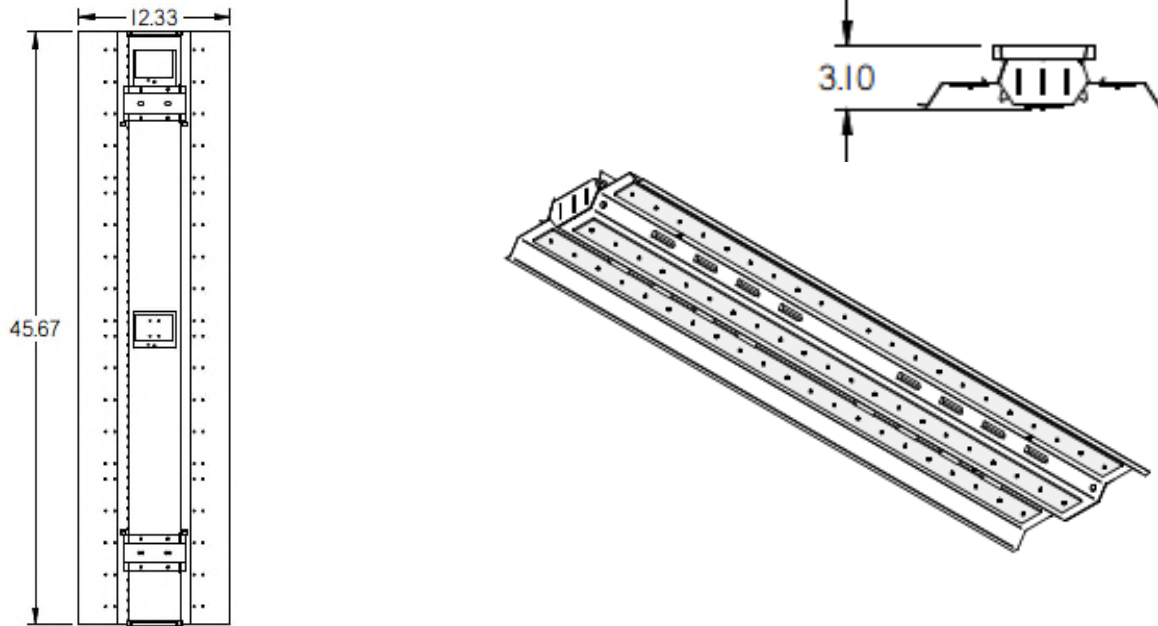

Lumens	10,160
Watts	70.6
LPW	145.1
Color	3549
CRI	85.3
L70	L70 @ > 200,000 hrs
L85	L85 @ > 140,000 hrs
Max Ambient Temp	135° F
Min Ambient Temp	-4° F
Dimming	0-10v Dimming to 1%
Driver Voltage	120/277
Chip	Seoul Chips
Driver	D15CC55UNVTW-C

* Actual performance data for RB4126SS1B3A0000

* UL Verification Services Inc Test # 11621041.18
